Subject: Rideable!

Hello.

Fordson -59 and are back on track! A big thank you for helping me with the spare parts to the SIMMS pump.

Sending you some pictures from our country house, by this time the snow equipment is disconnected from the tractor.

As you can see the snow has almost melted away and there is time to haul the firewood.

If you ever pass by "Skräckselet" in Swedish Lapland you are welcome on a cup of coffee...

GPS coordinates

WGS84

65°55'51.6"N 20°8'44.1"E

Best regards
